

Plastic & polymer additives and solution supplier E:info@novistagroup.com I:www.novistagroup.com

Technical Data Sheet ProStab[®] NV-52212

Product Introduction

52212 is specially designed for foam board .It is irregular flake or granular dust-free which is produced by metal compound stabilizer with the amount of chelating agent, lubricants and other internal and external components with the company's unique processing technology. The product contains the right amount of complex antioxidant system and other functional polymer additive, which can significantly increase profile's performance and improve the surface luster.

Product Properties

It has good thermal stability and processing performance, reasonable formulation. It has excellent internal and external lubricating balance and has wide compatibility to different processing equipments.

Novista Code	System Base	Dosage
52212	One pack lead	2.8-5.5
Appearance:	White or yellowish Flake	
Lead content:	34.5 ± 1.5	
Loss on heating :	1% max	
Initial melting point:	85° min	

Package and Storage:

Packed in 25kg pp woven bag (or according to customer's requirement)

--Shelf-life in unopened bag is at least one year, if stored in a cool and dry place.
